

# AutoSentinel

THE GUARDIAN OF THE ROAD  
by INNI Inc.

## What is AutoSentinel

AutoSentinel is a real-time monitoring platform that watches every document that keeps a vehicle road-legal in the United States — driver permits, vehicle records, registrations and insurance policies. Built by **INNI Inc.**, it consolidates fragmented state systems into a single dashboard and notifies users the moment something is about to expire, change status, or fall out of compliance.

## Key features

- **Driver permit monitoring** — status, expiration and restriction alerts.
- **Vehicle & registration tracking** — plate, title and renewal windows.
- **Insurance verification** — active-policy checks and lapse detection.
- **Real-time alerts** — email and in-app notifications, no manual check-ups.
- **Multi-state US coverage** — built for cross-state drivers and fleets.
- **Multilingual experience** — English, Spanish and French out of the box.

## Who it's for

<b>Individual</b> Track your own permit, vehicle, registration and insurance with instant alerts before anything expires.	<b>Family</b> Cover every driver and vehicle in the household under one dashboard with shared notifications.	<b>Business</b> Monitor fleets, drivers and compliance documents at scale — keep every asset road-legal across states.
--	---	---

## How it works

01

### Select a plan

Individual, Family or Business — pick the coverage that fits.

02

### Add drivers & vehicles

Securely register permits, plates, registration and insurance details.

03

### Real-time monitoring

AutoSentinel watches expirations, status changes and compliance windows 24/7.

04

### Instant alerts

Get notified by email and in-app the moment something needs your attention.

## Why AutoSentinel

- **Always on.** Continuous monitoring replaces calendar reminders and manual DMV check-ins.
- **One source of truth.** Drivers, vehicles, registrations and insurance live in one place.
- **Built for the United States.** Designed around how US permits, plates and policies actually work.
- **Speaks your language.** Native EN / ES / FR interface and alerts.
- **Peace of mind.** Stay road-legal without thinking about it — that's the Guardian of the Road promise.

## About INNI Inc.

AutoSentinel is a product of **INNI Inc.**, a US incorporation focused on real-time compliance and safety technology for drivers, families and fleets. Press, partnership and investor inquiries are welcome at the contacts listed below.
